Dear Penny

**Re: The Royal Wedding of Prince William and Catherine Middleton, 29 April 2011**

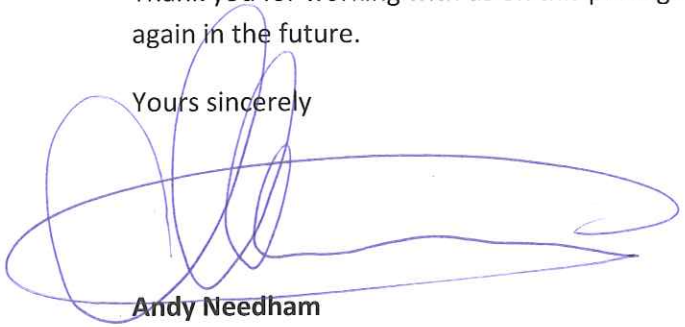

Now that the dust has settled a little, I wanted to take a moment to express my gratitude for your contribution to the successful delivery of the largest ever UK media logistics exercise.

We knew that we had worked hard to deliver everything that each and every one of our customers asked for (however challenging) and we knew that we had provided a first class product; one that far exceeded any prior expectations of what a temporary structure could offer. But the volume and depth of praise we have received post the event is indeed very humbling. To say that I am proud to be the recipient of such comments about our achievements and hard work is an understatement; I am overwhelmed.

This success was not just the result of hard work on the part of the Media Structures Royal Wedding Team, but also a number of key suppliers, including yourselves as an integral part of the process.

Thank you for working with us on this prestigious event, and we look forward to working with you again in the future.

Yours sincerely

**Andy Needham**  
Managing Director
